

**Keith W. Miller** earned a B.S. in education from Concordia Teachers College, an M.S. in math from the College of William & Mary, and a Ph.D. in computer science from the University of Iowa. He taught computer science for forty years, and is now a member of UMSL's College of Education. Dr. Miller has hundreds of papers, presentations, and invited talks that he authored or co-authored. As the Orthwein Endowed Professor for Lifelong Learning in the Sciences, Keith is working with the Saint Louis Science Center; Girls' Inc. of St. Louis; Boys and Girls Club; Variety, the Children's Charity; and St. Louis Children's Hospital to inspire students from K to grey to becoming engaged with science, technology, engineering and math. He recently finished working on a revision to the ACM's Code of Ethics. Dr. Miller's research areas include computer ethics, online education, and software testing.
