Sponsoring Flyer

IEEE German Education Conference

GECon 2025

“Networking Education in Germany”

GECon 2025 is calling for sponsors to support the fourth edition of the international conference. The IEEE Germany Section organizes the conference and aims to provide a platform to discuss teaching concepts and methodologies in German academic institutions, including universities, universities of applied sciences, and distance learning universities. This conference also aims to foster collaboration among German academic institutions and establish education-industry collaboration networks. Having a previous attendance of more than 40 participants with 28 contributions coming from 39 institutions, we anticipate increasing participation in this edition.

Sponsors might support through the following items:

- Gold Patrons (1500 EUR):
 - The company logo will be advertised on the conference website, as well as on credentials, banners, and emails.
 - The conference will provide a 15-minute session for the company to advertise products and services related to teaching. (10min talk, 5 min Q&A session)
 - A company member will be fully registered at the conference.
 - Table at the conference location to advertise company products related to technology throughout the conference.
 - Delivery of advertisement materials to the attendees.

- Silver Patrons (800 EUR):
 - The company logo will be advertised on the conference website, as well as on credentials, banners, and emails.
 - A company member will be fully registered at the conference.
 - Table at the conference location to advertise company products related to technology throughout the conference.
 - Delivery of advertisement materials to the attendees.

- Bronze Patrons (300 EUR)
 - The company logo will be advertised on the conference website, as well as on credentials, banners, and emails.
