CALL FOR PAPERS

GNSS+R 2023 will provide an international forum for reporting and discussing recent achievements in Global Navigation Satellite System-Reflectometry (GNSS-R) and other signals of opportunity (SoOp). We invite submissions that focus on all aspects of GNSS-R and SoOp, including but not limited to theory and modeling, instrumentation, algorithms and applications in the field of ocean, land, cryosphere, atmosphere, and ionosphere remote sensing.

IMPORTANT DATES

Abstract submission dates: November 28, 2022 – February 3, 2023

Notification of acceptance: March 3, 2023

Registration opening: March 6, 2023
