Nominations & Reference Letters are due 31 January 2019.
Nomination forms must be written in English. One per year. If no suitable candidate is proposed in a given year, the award will not be presented for that year.

Eligibility Requirements: There may be exclusion clauses for a particular Award that would result in the disqualification of a nominee. The nominator is responsible to verify the eligibility of the nominee, and also request for reference and endorsement letters from those that will not have conflicts with the Award Requirements at the time of submission. Refer to the "Eligibility" section for each Award on-line for the latest requirements. **Self nominations for PES Society Level Awards will not be accepted.**

2019 IEEE Power & Energy Society Awards

Candidate Information → Nominator Information → Education & Employment details → Details for the IEEE PES IAS A. P. Seethapathy Rural Electrification Excellence Award → Reference Page

Candidate's Name: *

First Name (given) Last Name (family)

Pick an Award from the list: *

[2019 IEEE PES IAS A. P. Seethapathy Rural Electrification Excellence Award]

Description: To recognize exceptional power engineers who have worked, implemented or innovated better and cheaper electrification technologies for the rural sector.

Prize: \$500 USD, sculpture, certificate, and a travel stipend of up to \$1,500 USD for recipient to attend the presentation ceremony. It is anticipated to have only one recipient; however if a team is chosen, the award would be shared equally.

Eligibility: Candidate must be active in the field of rural electrification for at least 5 years. No current member of the IEEE Board of Directors, the IEEE PES Governing Board, IAS Executive Board, the IEEE PES Awards and Recognition Committee, the IAS Awards Department, the Rural Electrification Excellence Award Committee, or IEEE staff may be candidates, or nominate or endorse candidates for this award.

Basis for Judging: Selection will be based on evaluation of accomplishments as revealed by published works, documented testimonials from industry colleagues, or other objective demonstrations of accomplishments over an extended period of time. Of particular importance is evidence of the candidate's innovative content and societal impact: lower cost solution; originality and practicality; and evidence of implementation.

Presentation: Presentation of the award shall be made by the PES President, IAS President or the Rural Electrification Excellence Award Chair or their designated representative.
