

The Twelfth IEEE Sensor Array and Multichannel Signal Processing Workshop

<https://attend.ieee.org/sam-2022>

June 20-23, 2022 – Trondheim, Norway

General Chairs

Pierluigi Salvo Rossi
NTNU, Norway
Stefan Werner
NTNU, Norway

Technical Chairs

Subhrakanti Dey
National University of Ireland, Ireland
Yih-Fang Huang
University of Notre Dame, US

Special-Session Chairs

Domenico Ciunzo
University of Naples "Federico II", Italy
Elena Simona Lohan
Tampere University, Finland

Tutorial Chairs

Mats Bengtsson
KTH, Sweden
Tirza Routtenberg
Ben-Gurion University, Israel

Finance Chair

Geir Øien
NTNU, Norway

Publicity Chair

Petar Popovski
Aalborg University, Denmark

Publication Chair

Naveen Venkatesh
Linköping University, Sweden

Registration Chair

Yuan-Pei Lin
NYCU, Taiwan

Local-Arrangement Chairs

Kimmo Kansanen
NTNU, Norway
Milica Orlandić
NTNU, Norway

IMPORTANT DATES

Paper-Submission Deadline
March 2nd, 2022
Special-Session Paper Deadline
March 23rd, 2022
Notification of Acceptance
April 27th, 2022
Final-Manuscript Submission
May 18th, 2022

Technical Program

The SAM Workshop is an important IEEE Signal Processing Society event dedicated to sensor array and multichannel signal processing. The organizing committee invites the international community to contribute with state-of-the-art developments in the field. SAM 2022 will feature plenary talks by leading researchers in the field as well as poster and oral sessions with presentations by the participants.

Plenary Speakers

Morten Dalsmo, *SINTEF Digital, Norway*
Visa Koivunen, *Aalto University, Finland*
Antonio Ortega, *University of Southern California, US*
Ana Isabel Pérez-Neira, *CTTC, Spain*
Athina Petropulu, *Rutgers University, US*
Pramod Varshney, *Syracuse University, US*

Welcome to Trondheim (Vibrant City with Small-Town Heart)!

Trondheim is Norway's third-largest city and stands out with its progressive nature and vibrant city life while still embodying its small-town heart. In Trondheim, the fusion of history, arts, technology and green initiatives ignites a culture of innovation and rich tradition. Trondheim was once the Viking capital of Norway, but even before the Pilgrims and the Viking Age, people were drawn to the region because of the seafood-rich fjords and vast mountains filled with wildlife and some of the most fertile soil in the country. Trondheim is bustling with youth and fresh ideas, a thriving tech community, and innovative start-up incubators and co-working spaces (primarily due to being the home of NTNU, the largest university in Norway, with its strategic research in areas such as energy, health, oceans, and sustainability).

Call for Sponsors

We invite sponsorship from the academia, industries, businesses and government agencies with the following sponsorship options:

Premium Sponsorship (Fee: EUR 5000)

- Logo on the website and printed materials
- 2 complimentary registrations
- Company presentation in the demonstration session
- A booth for displaying and interacting with attendees
- 2 pages of advertisement printed in the program brochure
- Advertisement materials in conference bags

Standard Sponsorship (Fee: EUR 2500)

- Logo on the website and printed materials
- 1 complimentary registration
- 2 pages of advertisement printed in the program brochure
- Advertisement materials in conference bags
