The IEEE SSCI 2021

4 – 7 December 2021
Orlando, Florida, USA

The IEEE SSCI seeks to bring together leading researchers and practitioners from academia and industry in the field of Computational Intelligence (CI), to discuss recent advances, applications and emerging topics in AI, to explore future directions, and to share insights into cutting-edge research related to AI technologies.

- Get inspired by plenary talks pushing the application of CI forward
- Get smart with keynote talks and paper presentations on the latest findings
- Get hands-on with tutorials on cutting-edge techniques
- Get collaborating with world-leading researchers and professionals

IEEE is the world's largest technical professional organization

With over 419,000 members in 160 countries, IEEE offers highly cited publications, conferences, technology standards, and professional and educational activities.

IEEE Computational Intelligence Society (CIS) is the home for researchers and practitioners in the field of AI. With 8,000 members, IEEE CIS provides a great platform for exchange and networking in the field.

IEEE SSCI is tailored for researchers and practitioners in the AI field who are interested in cutting-edge topics and their applications. IEEE SSCI is a unique event, since it covers a wide spectrum of topics from health to cybersecurity to agriculture and many more.

Talks, socials events, papers on the new ideas in AI offer a great platform for young researchers to attend SSCI. IEEE SSCI is an established conference with over 650 participants.

IEEE SSCI 2021 intends to broaden its scope to increase the number of participants and welcomes the participation of industry.

IEEE SSCI and Industry

Most of our participants benefit from tailored career opportunities presented at the conferences. We intend to support the young professionals to such career opportunities at IEEE SSCI.

IEEE SSCI provides a unique platform for industrial sponsors to present themselves to potential employees in the area of AI and Computational Intelligence. Our participants' expertise goes even beyond algorithm design and covers various applications.

We have the following statistics from IEEE CIS conferences:

- Professors and experts in AI: 20%
- Researchers and young professionals: 60%
- Graduate and undergraduate students: 20%

Sponsorship options

Bronze (500 US Dollars) Mention in welcome talks and logo on website, badges and conference program.

Silver (1000 US Dollars)

[Bronze] + One A4 page (or similar) with company text distributed with the registration package.

Gold (2000 US Dollars)

[Silver] + A banner or poster to be displayed in conference lobby (or on the presentation platform in case of a fully digital conference due to COVID).
+ One fee waiver for the whole conference.

Platinum (2500 US Dollars)

[Gold] + A permanent booth for 2 people for the whole conference (Only for face-to-face conference).
+ A short talk (10 minutes).
+ Up to two fee waivers for the whole conference.

Being a sponsor in a nutshell

By sponsoring you will be helping us organize the best possible conference and experience for professionals, researchers, speakers, guests and delegates.

What's in it for a sponsor?

It will give you access and positive branding for:

- Leading AI research groups
- Investment in R&D for companies
- Students, researchers and professionals that attend the conference
- Recruitment opportunities among the top practitioners in the field of AI and beyond
