

2023 IEEE Symposium Series on Computational Intelligence

December 5-8, 2023, Sheraton Maria Isabel Hotel, Mexico City, Mexico

Call for special sessions at SSCI 2023

2023 IEEE Symposium Series on Computational Intelligence (SSCI 2023), <https://attend.ieee.org/ssci-2023/>, is a flagship annual meeting of the IEEE Computational Intelligence Society. It provides a primary forum for multidisciplinary research in computational intelligence. SSCI 2023 will be held in Mexico City on December 5th-8th 2023. It is the first time the conference be held in Latin America, and in the largest Spanish-speaking city, Mexico City.

SSCI 2023 will be in-person conference. The organizing committee of SSCI 2023 invites you to submit your special session proposal. The papers submitted to the special session will be handled by its special session chairs. The special session chairs will invite reviewers and make decision for these papers.

A special session proposal should include the following information: title of the special session, description of the scope, a list of 3-10 topics, a list of 3-5 keywords, special session organizers (names, affiliations, emails). It is expected that at least one of the organizers would be attending the SSCI 2023 conference. Special session proposals should be sent directly via email to the Program Chair:

- Xiaou Li, CINVESTAV-IPN, Mexico, lixo@cs.cinvestav.mx

The deadline of special session proposal is 15th April 2023. Early proposal submission is strongly encouraged.
