

12th IEEE International Conference on Wireless for Space and Extreme Environment (WiSEE 2024)

Dec 16-18, 2024 - Daytona Beach,
Florida, USA

Passive Wireless Sensor Technology Workshop (PWST)

Call for Abstracts

Important Dates:
Abstract Submission Deadline:
Sept 15, 2024
Acceptance Notification:
Oct 15, 2024

The workshop aims to bring Passive Wireless Sensor (PWS) technology developers, manufacturers, and potential industry end-users together to understand the larger market drivers that will drive costs down and applications up. We will concentrate on Aerospace applications at this workshop, so capability that helps the aerospace manufacturing, mission, and maintenance will be a priority.

Objectives:

- Understand various PWS technologies, actual & potential uses, and maturity.
- Share future applications/advantages/limitations PWST in various industries and agencies.
- Precipitate individual & group “next step” thinking to further develop/apply PWST.
- Continue building an accessible library of PWST Workshop publicly released presentations.

Format:

- Selected speakers will present for 25 min followed by 5 min for questions and answers.
- Presenters are required to register for the WiSEE conference and attend in person.
- Presenters are encouraged, but not required, to submit technical papers to the WiSEE general technical tracks.
